## RUSSIANS IN WILD FLIGHT ALONG FRONT

### SERIES OF BRILLIANT AUSTRIO-GERMAN VICTORIES IN GALICIA CONTINUE

### BOARD OF MUNITIONS IS CREATED BY RUSS

### RUSSIAN REVERSES DUE TO LACK OF EXPLOSIVES; IMPERIAL RESCRIPT ISSUED

(By Associated Press.)  
LONDON, June 30.—The Russian retreat is growing to a wild flight along a front of 280 miles.

London, June 30.—The Norwegian ship, Cambskenneth, from Portland, Oregon, for Liverpool, was sunk today by a submarine.

Eight or her crew, who were Germans, were taken aboard the submarine. Others of the crew were landed.

The Norwegian steamer Gjevo, was also sunk today. Her crew was saved.

Petrograd, June 30.—An imperial rescript issued today in connection with the formation of a board of munitions, Emperor Nicholas appeals to the whole country to stand together and say:

"Let us strengthen our hearts, resolve to carry on the struggle with the help of God to complete the triumph of Russian arms. The enemy must be crushed. For without that peace is impossible."

### More Munitions for Russia

London, June 30.—Russia's reply to the brilliant series of Austro-German victories in Galicia is a law setting up a "board of munitions," empowered to spend unlimited money and which is given virtually unrestricted power over all the private industries in the whole country.

It is reported from Petrograd that the creation of the board became a law with a celerity that was astounding.

This is taken to mean that the country realizes the recent disaster to the forces of Grand Duke Nicholas are largely due to lack of munitions.

### Tremendous Turk Losses

Paris, June 30.—A Havas dispatch from Athens says the exhaustion of the Turks facing the French of the Gallipoli peninsula is evident and leads to the belief that the Turkish position at Krithia will soon be taken by assault. The Turk losses are tremendous.

### Declare Russians are Not Discouraged

London, June 30.—Russian armies neither are beaten nor disheartened, according to the correspondent of the Times in reviewing the six weeks' Teutonic advance, after visiting Russian headquarters. He says the Germans and Austrians each have lost 350,000 men, but that they must count.

## COUNTY ATTORNEY SWANK OUTLINES HIS CAMPAIGN

### WILL SUE PROPERTY OWNERS IN SAME MANNER AS DID EMBRY AT OKLAHOMA CITY

County Attorney Arthur Swank authorizes the statement that he will begin early next month his campaign to systematically clean the city of logggers. "I have decided on a plan that will be effective. It is in line with the means employed by County Attorney Embury at Oklahoma City. I believe I have given the property owners of Guthrie sufficient opportunity to get out and get from under. It is now up to them to act, and act mighty quick if they do not want grief and court trouble. I am sincere in my desire to clean up this city and every town in Logan county. If there are any who think I am 'flashing' they will learn that they were badly mistaken. The law must be enforced."

## STORES TO CLOSE AT 9 ON SATURDAY NIGHTS

All of the stores of the city except drug stores and confectioners will close at nine o'clock on Saturday night hereafter beginning next Saturday night. This hour for closing has been fixed by a general agreement among the merchants of the city to save the stores employing women and to comply with the new nine o'clock law. This same agreement has been reached in practically all of the towns of the state and will be of benefit to all store employees. People generally should take note of this and do their shopping early.

## THOMPSON TO BE PROSECUTED IN NOBLE

F. P. Thompson, traveling salesman from Wichita, charged with abducting Ellen Kellogg, was brought here for Perry Tuesday and lodged in jail. He will be returned to Perry this morning and prosecuted in Noble city on a statutory charge. County Attorney Swank said that Noble city courts had jurisdiction in the matter.

## THE RULERS OF RUMANIA AND THE COUNTRIES WANTED

The dream of a "Greater Rumania" just now being indulged in by the aggressive politicians of that Balkan kingdom is imposing a very difficult problem upon the allies. As the price for her entrance into the war Rumania demands a large part of Kingdom of Transylvania and suggests that Bessarabia would make a very desirable Rumanian province. The territory demanded in Bukovina and Transylvania contains almost 4,000,000 people, the city of Czernowita and thousand of square miles of the richest agricultural land in Europe. Russia cannot yet accede to the demands, for the reason that she has already promised some of the desired territory to Serbia. With the recent losses in Galicia, however, in mind, she allies need Rumania's aid more than ever before and it is not unlikely that Serbia may be persuaded to yield her prior claim.

## X-RAY VALUE IS PRESENTED BY DR. MILLS

### GIVES BRIEF ADDRESS AT ANNUAL DEMONSTRATION 22D SESSION OF THERAPEUTICS SOCIETY

(By Associated Press.)  
Chicago, June 30.—The National Society of Physiatrists convened today for its twenty-second annual session, in joint meeting here with the American Institute of Homoeopathy. President E. P. Mills, of Ogden, Utah, in his address reviewed various mechanical and physical measures in the treatment of disease, dwelling upon the value of sunlight, X-ray and radium. In part Dr. Mills said:  
"An exposure to the X-ray of a cancerous growth may either destroy it and induce fibrosis—nature's method of cure—or stimulate it to renewed growth, the technique deciding what the effect will be. The hands of almost any of the earlier workers with the X-ray bear immutable evidence of the dangerous effects of this useful agent. If they did not possess the power to do harm, they could not have the power to bring health."  
"Sunlight is one of the great gifts of nature. It is the greatest disinfectant in the whole list and is necessary for the healthy development of all forms of life. Deprived of it, either vegetable or animal forms of life do not reach their normal growth. Yet this beneficent agent has another aspect. Sun burns may be the irritative agent required to start up the activity of cancerous development. A word of warning can be uttered against too much of even so good a thing as sunlight."  
"As to radium, its effect on the nervous system, if applied for a short period, is stimulative; if applied for a number of hours it produces paralysis. The length of time of application therefore is one of the most important points for the physician to consider."

## LINER BUMPED IN HEAVY FOG BY AN UNKNOWN

### HOLLAND-AMERICAN STEAMER, AMSTERDAM, IS RAMMED WHILE AT ANCHOR

### NEAR-PANIC IS PREVENTED BY OFFICIALS

### "UNKNOWN STEAMER" CAN NOT BE LOCATED; SUB STORY IS DENIED

(By Associated Press.)  
Dord, England, June 30.—The Holland-American steamer, Nieuw Amsterdam, with twelve hundred passengers aboard, from New York for Rotterdam, was run down in a heavy fog by an unknown steamer this morning while anchored in the Downs.

The port quarter liner was damaged, but the vessel is still riding safely to anchor.

The boat carried a general cargo also destined for Rotterdam.

A near-panic was averted by the promptness and cool headed work of the boat's officers. Many passengers fearing a torpedo had struck the vessel, prepared to jump overboard.

Every effort has been made to locate the "unknown steamer." Fear prevails that she floundered and sunk. The story that the Nieuw Amsterdam was rammed by a submarine is denied.

License to conduct a pool hall in the building now occupied by "The Turf" was denied Neal Higgins by Judge John D. Chappelle in county court this morning. Protest was filed by several Guthrie citizens against issuance of the license and the hearing was held before Judge Chappelle yesterday. Evidence that a room leading from the pool hall in the same building had been used as a joint, was introduced and a federal liquor license secured by Rev. Parker in a recent raid were the prime reasons for refusing the application.

Protest has also been made against issuing a license to the operators of the Saddle pool hall on West Harrison avenue.

## THIEVES GRAB JOHN GAFFNEY'S FORD CAR

### PUSHED NEW CAR QUARTER OF MILE THEN CRANK UP AND HIKE

Thieves entered John Gaffney's garage last night some time after midnight and stole his new 1915 model, five passenger Ford car. The car was practically new. The car was pushed nearly a quarter of a mile by the thieves before they started the engine. This fact was evidenced by bare foot prints in the mud in the tracks of the wheels. After pushing the car to a point behind some trees the thieves started the engine and drove about two miles south. At that point they turned north and evidently came to Guthrie.

Sheriff Sherwood has wired all cities north and east to watch for the thieves. The engine number of the car is 712,782.

Gaffney was planning to make an overland trip to Colorado this summer and had but recently bought the Ford for that purpose.
